

### // OBJECTIVE

---

I'm a hands-on [Project Manager](#) with an extensive background in Information Technology, Software Development, and Web Development. I have a Project Management Professional (PMP) certification and an applied learning of [Agile methodologies](#) through various start-ups and web development projects. I have a deep understanding of developing technologies with the ability to apply business strategies and company objectives to any project. I'm seeking a role in an innovative company allowing me to capitalize on my ability to bring innovative concepts and solutions to some of the most complex problems.

### // EXPERIENCE

---

#### FXH, INC

Nov 2004 - Present

##### Founder

An information technology company based in Tucson, Arizona that offers comprehensive website, software, and digital marketing solutions to clients across the United States.

- \* Responsible for executing day-to-day business operations as well as developing long term strategies.
- \* Agile Project Manager and Lead Developer of web design, web development, and software development projects primarily using PHP, Zend Framework, C#, and MySQL.
- \* Accountable for the remote installation and maintenance of 10+ servers in multiple data-centers nationwide.
- \* Develop system level architectures and execute implementation of IT solutions
- \* Manage company budget and prepare financial records for government agencies.

#### TECH LAUNCH ARIZONA - UNIVERSITY OF ARIZONA

March 2014 - June 2015

##### Ambassador

The Ambassador's mission is to connect student and faculty inventors with local industry to commercialize ideas and facilitate retention of technical talent within Tucson.

- \* Developed working relationship with industry partners, the University of Arizona, City of Tucson, and other academic departments to support UA technology innovation and entrepreneurship.
- \* Designed and developed an internal backoffice web-based application to support marketing and operational processes using HTML, Bootstrap, PHP, and MySQL.

#### CANNONBALL PROJECTS, INC

Feb 2011 - Dec 2014

##### Co-Founder / Lead Developer

Company spawned from an idea for a social media application between two McKelvey entrepreneurship scholar alumni. Secured initial seed from a New York based angel investor and business leader.

- \* Lead backend developer using PHP, Zend Framework, Doctrine ORM, MySQL, HTML, CSS, jQuery, and JSON technologies.
- \* Responsible for developing product life-cycle strategies using Agile-based project management processes.
- \* Lead and supervise a team of eight remote software developers; including iOS, Android, Web, Backend, and Graphic Designers.
- \* Manage product backlog and weekly sprints using Jira and Confluence.
- \* Responsible for product quality assurance testing and verification
- \* Secured multiple seed financing rounds totaling \$1.3M.

#### UNIVERSITY OF ARIZONA - ECE DEPARTMENT

Feb 2009 - Dec 2010

##### Developer / Web Master

- \* Developed a robust PHP-based ticketing support system for the College of Engineering that is still in use today.
- \* Integrate multiple systems and databases together using a combination of custom PHP, HTML, CSS, XML, and jQuery code.
